

Schools' Choice

The Struggling Reader: Developing Reading Comprehension Skills

Outcomes

You will have an understanding of the cognitive processes involved when effective reading comprehension takes place.
You will be shown strategies which will support students who find reading comprehension challenging and those whose comprehension is challenged by decoding difficulties.
You will have opportunity to view resources which support the teaching and learning of reading comprehension skills

Event Description

This training event will give an overview of the skills needed for effective reading comprehension to take place and provide strategies to support students who find reading comprehension difficult and / or students whose comprehension is challenged by decoding difficulties.
